

November 2010 Update on ACON Work in Kenya by Salim Shaban.

Government Officials listening to the ACON community development reports during the gift giving day to orphans, Widows and need children. The District commissioner was very much impressed with our community development activities and She emphasis the spirit of goodwill, cooperation and service that ACON has shown.

Government Officers (National Environmental Management Authority) are very much interested with Biochar Technology and Biochar producing stoves.

My mother giving out clothes and blankets to orphan. These support came from Sales of 5 biochar stoves and 200 fuel briquettes.

Salim with needy children. We have 10 needy children that we are supporting in terms of Education and basic human needs.

Salim Giving out clothes Rose Wanjala.

Water hyacinth stuff on the sun in preparation for fuel briquetting next week.
